

# WIN Universal Container Tracking

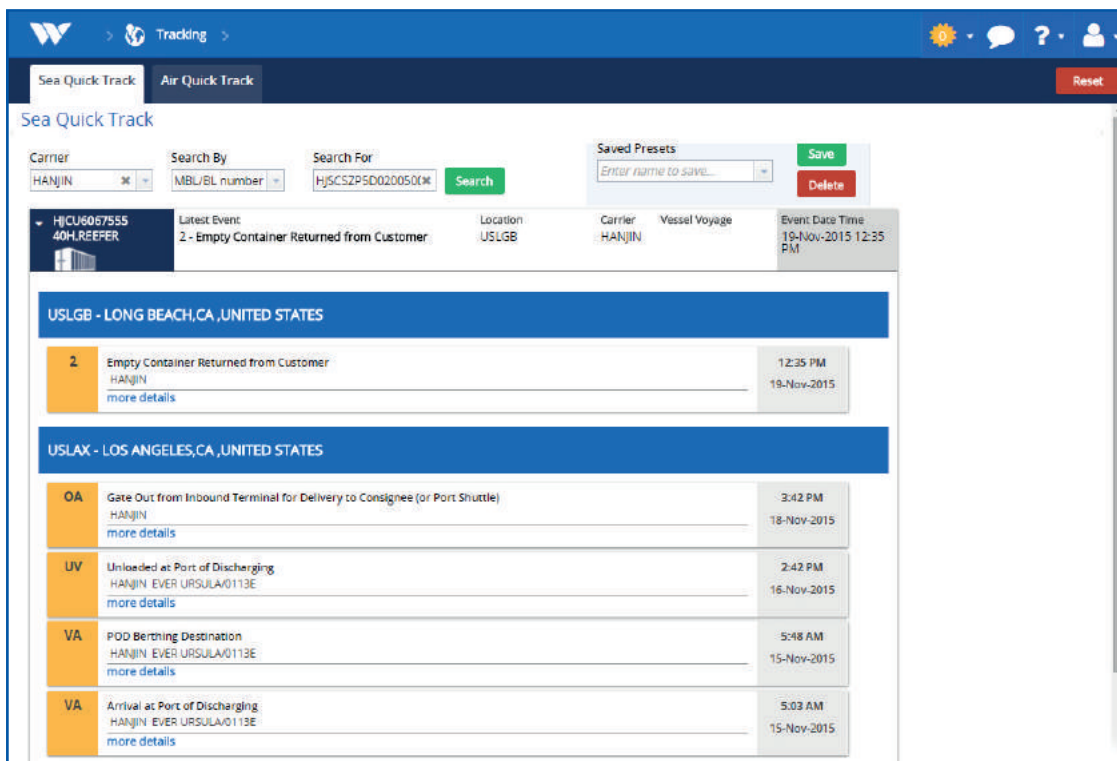

## Track any container

Track any container by BL, booking or container number (depending on carrier) three different ways;

- (1) On the web and mobile
  - (2) Add a container tracking tool to your website (White Label)
  - (3) Integrate your system to get container statuses
- ▶ Stop surfing carrier websites
  - ▶ Equip your staff with the most efficient way to stay informed about the status of any container
  - ▶ Give your customers a powerful self-service tool to track their containers on your company website
  - ▶ Using WIN's simple web-service API, your system can have the latest statuses on containers automatically

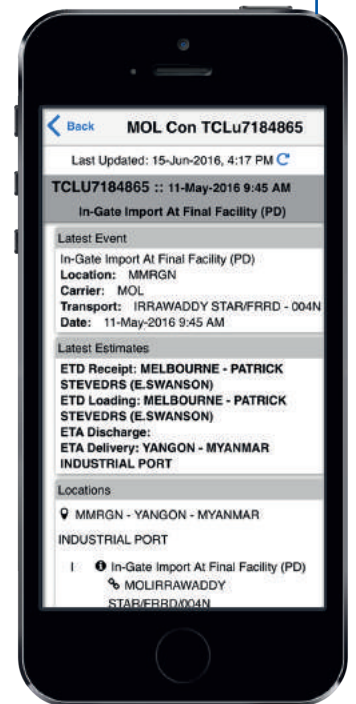

UCT on the web

UCT on mobile

The screenshot shows the 'Sea Quick Track' interface. It includes a search bar with 'Carrier' set to HANJIN and 'Search For' set to HJSCSZP5D0200500K. Below the search bar is a table of events:

Event	Location	Carrier	Vessel Voyage	Event Date Time
2 - Empty Container Returned from Customer	USLGB	HANJIN		19-Nov-2015 12:35 PM
<b>USLGB - LONG BEACH, CA, UNITED STATES</b>
