

WIN Airline Solutions

Increase e-AWB Penetration!

WIN provides the ability for airlines to increase e-AWB penetration amongst a growing network of over 7000 independent agents!

Because WIN Airfreight was created to make it is easy for independent forwarders to transmit electronic AWBs and bookings to airlines, WIN does not charge airlines anything to send and receive electronic messages (FWB 16/17 including e-CSD).

WIN provides full support of e-Pouch between origin and destination agents giving the opportunity for airlines to carry fewer documents.

With a proactive and knowledgeable team, WIN makes it easy for airlines to connect!

- ▶ Increase e-AWB penetration amongst SME agents
- ▶ No costs for airlines
- ▶ Carry fewer documents
- ▶ Get marketing and sales opportunities in a growing network of 6000 independent forwarding agents
