The screenshot shows the 'Sea Schedules' search interface. It includes filters for 'From' (NLRM - Rotterdam), 'To' (THLCH - Laem Chabang), 'Date' (22-Jul-2015), and 'Weeks out' (1). There are also options for 'Direct only' and 'Carriers'. Below the filters, there are sections for 'Days of Departure', 'Total Transit time' (30 days to 48 days), and 'Days of Arrival'. A 'Carriers' section lists HANJIN, MOL, UASC, KLINE, NYK, and YANGMING. An 'Exclude Via Routes' section lists Port Klang (MYPKG) and Singapore (SGSIN). The main table displays shipping legs with columns for Leg, Carrier, Operator, Voyage #, Vessel, Departs, Arrives, Stops, SCAC, and Transit Time.
