

# WIN Airfreight

## Work with airlines electronically

WIN Airfreight allows you to make bookings and transmit AWB details electronically to 90+ airlines for increased speed, accuracy, fewer delays and significant carrier fee reductions.

WIN provides full tracking on every shipment and enables sharing of Master and House AWBs with the destination agent (as PDF or JSON/XML data), and sharing tracking milestones, and any attached pouch documents.

- ▶ Book and transmit AWB details electronically to 90+ airlines with full IATA e-AWB support
- ▶ Easily connect your AWB print system to avoid double entry or use it online
- ▶ Track AWBs on web, email or mobile (Android & iOS)
- ▶ Save big with reduced carrier manual-processing fees
- ▶ Partner agents get full tracking, access to e-Pouch documents and more

### Testimonials

“ WIN is a perfect tool at a very reasonable price which enables us to operate air cargo on a technical level. We also increased our competitiveness issuing FWB/FHL messages on our own, not paying the high fees charged by ground handlers/carriers. Also it is our entry into the e-freight. ”
